## **¡BIENVENIDO A NUEVA LINEA JOYAS!**

Estamos encantados de ofrecerle nuestro último catálogo general, válido hasta diciembre de 2026.

Por supuesto, a lo largo de los meses, recibirá suplementos con nuevas colecciones que complementarán nuestra oferta, basadas en las últimas tendencias.

Desde hace más de 15 años, estamos comprometidos en acompañarle.

Nuestra misión es asesorar a nuestros socios, profesionales de la joyería, para satisfacer sus necesidades y ayudarles en su desarrollo.

En este catálogo de 740 páginas encontrará todas las colecciones imprescindibles en plata, en oro laminado con normativa francesa y en acero: desde los básicos esenciales hasta las últimas tendencias de la moda y la joyería clásica. ¡ Todo está aquí para su éxito !

Tómese el tiempo de estudiar este documento, apreciar y comparar las colecciones en su justo valor, su calidad de fabricación, los servicios que le ofrecemos, y las márgenes inigualables que obtendrá.

Aquí encontrará todas las razones para avanzar juntos.

¡Que disfrute del descubrimiento!

# NUEVA LINEA JOYAS

en pocas palabras...

## El reconocimiento del mercado

Creada NUEVA LINEA JOYAS hace 15 años en España, nos hemos esforzado en crear un gran producto de joyería en plata y chapado en oro para profesionales.

### Su misión a largo plazo es:

- Crear colecciones de calidad y actuales que sean los best-sellers de cada temporada.
- Generar los mejores márgenes para todos nuestros socios
- Proporcionar una gama de servicios que faciliten la vida diaria de nuestros revendedores.
- Acompañarlos de cerca en sus decisiones estratégica.

### Hoy en día, NUEVA LINEA JOYAS es:

- Una facturación anual que nos proporciona un constante crecimiento.
- Un grupo humano de colaboradores movilizados a su servicio.
- Miles de piezas fabricadas y vendidas en 2024.
- Nuestro consumo de plata reciclada al 80% y de oro reciclado al 100% y transformado cada año.
- Más de 1800 nuevos modelos comercializados cada año.
- Más de 10 000 referencias en catálogo.

## La creatividad en marcha

El sector de la joyería enfrenta la competencia de otros sectores no esenciales (prêt-à-porter, decoración, viajes...). La creatividad y la renovación de las colecciones son, por lo tanto, una ventaja clave para el éxito de cualquier punto de venta o sitio web, ya que generan cada vez más tráfico en tienda o en la web.

Captar a un público joven, consumidor de nuevas tendencias, también es un desafío de primer orden para renovar la clientela. NUEVA LINEA JOYAS ha comprendido la importancia de la creatividad y cuenta con personal dedicado al diseño de sus colecciones.

Nuestro equipo trabaja las nuevas tendencias de la moda actual y mantiene una mirada atenta sobre otros sectores relacionados con la moda, la decoración y, por supuesto, las redes sociales.

Además de las 1800 novedades creadas cada año, trabajamos en la creación de colecciones exclusivas para nuestros clientes, aportando toda la experiencia necesaria para mejorar sus negocios de joyería.

## Una fabricación optimizada

Con nuestros 15 años de experiencia NUEVA LINEA JOYAS ha establecido alianzas con los mejores talleres de fabricación, abarcando todos los oficios de la joyería: cadena, fundición, engaste, estampado, y chapado.

Todas las tareas mecanizadas se realizan en la Unión Europea para asegurar una calidad constante. Más del 75% de nuestras joyas pueden así ostentar la denominación «Hecho en Europa». No comprometemos la trazabilidad ni la calidad, asegurando al mismo tiempo un precio competitivo.

Por razones evidentes de competitividad, las primeras tareas manuales se realizan fuera de la Unión Europea por socios que pueden responder tanto a los volúmenes de producción requeridos como a la excelencia en calidad y responsabilidad social y ambiental.

Nuestra misión principal es ofrecerle una joya con una relación calidad/precio/servicio inmejorable.

## Una responsabilidad comercial, social y ambiental

Verdadero desafío para las generaciones presentes y futuras, trabajamos activamente por un mundo mejor. Estamos orgullosos de anunciar nuestra certificación por el Responsible Jewellery Council (RJC) para su Código de Prácticas (COP).

El RJC es una organización internacional reconocida que promueve normas éticas, sociales y ambientales en la industria de la bisutería.

- Y mucho más...

¡Bienvenido a NUEVA LINEA JOYAS!

Nuestra certificación RJC confirma que cumplimos con criterios estrictos en materia de derechos humanos, protección del medio ambiente y prácticas comerciales responsables.

Como líder del sector, nos comprometemos a ofrecer productos de alta calidad mientras contribuimos a un futuro más transparente y sostenible para la industria de la joyería.

Todas nuestras joyas cumplen con la normativa europea REACH y no contienen níquel, plomo ni cadmio. Además de los controles realizados al final de la cadena de producción, realizamos regularmente pruebas de calidad con organismos acreditados por el estado.

Para limitar el impacto de nuestra actividad en los recursos naturales, el 100% del oro y el 80% de la plata que utilizamos en la fabricación provienen del reciclaje.

Como pueden ser fundidas, todas nuestras joyas son reciclables: oro, latón y plata pueden ser reutilizados.

Actualmente, estamos trabajando en otros proyectos para reducir nuestro impacto ambiental, como el uso de empaques 100% reciclables.

En nuestra nueva línea joyas somos expertos en chapado en oro. Todas nuestras joyas chapadas en oro cumplen con la norma española y están garantizadas durante 10 años los defectos de chapado. Nuestro chapado en oro se realiza sobre una base de latón sin plomo, sin níquel y sin cadmio, lo que lo hace hipoalergénico. El espesor del chapado en oro es de un mínimo de 3 micras sin tolerancia de dispersión, de conformidad con la legislación española. Nos comprometemos a la legislación vigente y a ofrecerle una calidad irreprochable, nos imponemos un umbral mínimo de depósito superior al exigido por la norma. Para optimizar el color del oro con el paso del tiempo, nuestros chapados se producen exclusivamente en baños de oro 750/000 (18 quilates) de oro con un acabado final en un baño de oro 980/000, que protege nuestro chapado de la oxidación natural. El 100% del oro utilizado en nuestra producción se recicla para reducir el impacto de nuestra producción en el medio ambiente.

All our stainless steel jewellery is made of 316L stainless steel. 316L steel is highly valued in the jewelry and watchmaking, due to its many qualities.

**Corrosion resistance:** this steel is particularly resistant to corrosion, especially in humid and saline environments, making it ideal for jewelry exposed to water.

**Durability and strength:** its composition makes it more resistant to impacts and scratches than other types of stainless steel. It is robust, making it a good choice for everyday jewelry.

**Hypoallergenic:** 316L is often used for people with sensitivities or allergies, as it releases almost no nickel and is very well tolerated by the skin.

**Aesthetic appeal:** it has a shiny, polished appearance, similar to silver, that remains intact over time and does not tarnish.

**Easy maintenance:** unlike other materials, it is easy to maintain and does not require regular polishing to keep its shine.

These qualities make 316L steel a particularly popular material for durable jewelry, suitable for sensitive individuals.
